少女進化論

A breeze ruffles my hair, a reminder of the changing seasons.
Unknown flowers bloom by the roadside, shivering delicately.
The seasonal wind blows sweetly, shaking the foliage before me. As if directing me towards that certain someone.

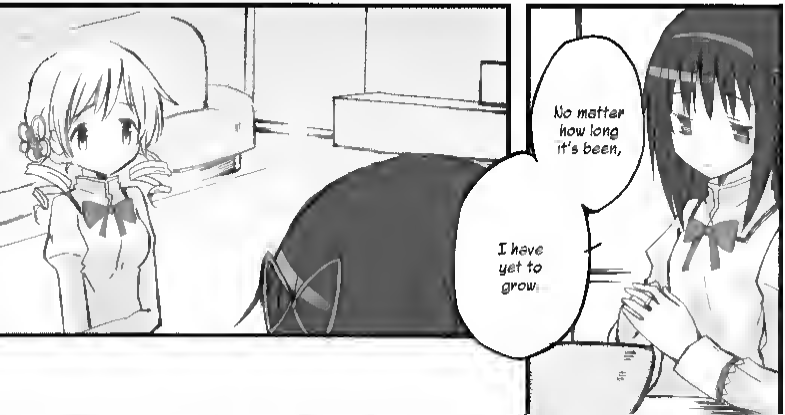
GIRL EVOLUTION

少女進化論

しょうじょしんかろん

This certainly changes my impression of you, Akemi-san. How adult-like... That sounds so believable
Sugar?

Kaname Madoka... Once a fellow magical girl... Savior of the Law of Cycles...
...none, thanks

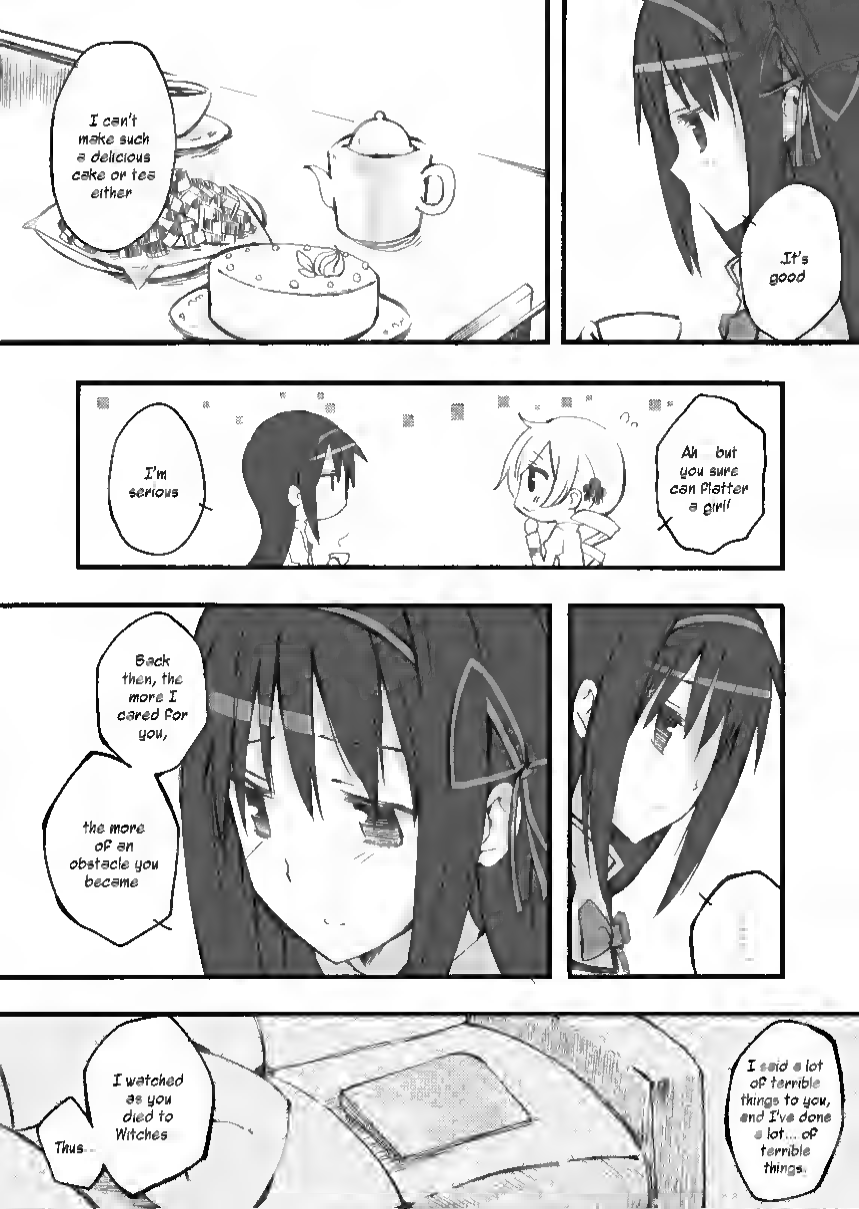


No matter how long it's been,
I have yet to grow...

I can't be like Tomoe Mami, smiling happily before others.
I can't be like Miki Sayaka, valiantly holding on to something.
Nor can I be like Sakura Kyouko, forgiving all that has transgressed.
In the end,
I will never be cool like Madoka told me to be

That's why
even though I've been a magical girl longer than anyone else,
I remain as fragile as I always was...

sorry
for making things weird
Akemi -san...



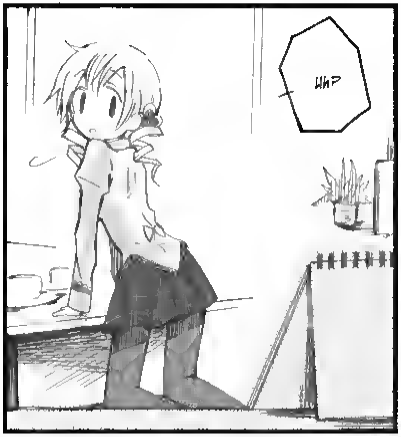
I can't make such a delicious cake or tea either
It's good
I'm serious
Ah... but you sure can flatter a girl!
Back then, the more I cared for you,
the more of an obstacle you became
I watched as you died to Witches
Thus...
I said a lot of terrible things to you, and I've done a lot... of terrible things.

After I learned your weakness I even... used it to my advantage...
The more times I went back, the further apart we grew...
It's all right
If those things are true, then I must have said and done many terrible things to you, Akemi-san?
So we're even, right?

I will only hold Tomoe~san back.!
You won't
Take your time Walk at your own pace, Akemi~san, OK?
That's right once, you actually tied me up with your ribbons and were ready to fire at my Soul Gem, I thought I was a goner
Wha!
Uh!? T-That might have been really shocking !
I-I'm sorry! Akemi -san
オロオロ

But compared to all that I've done to you,
that's nothing

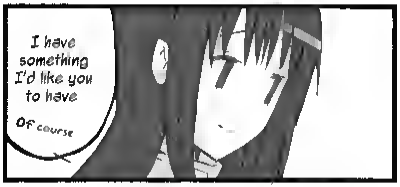
Akemi-san, you remember my birthday?
I even forgot!



Uh?

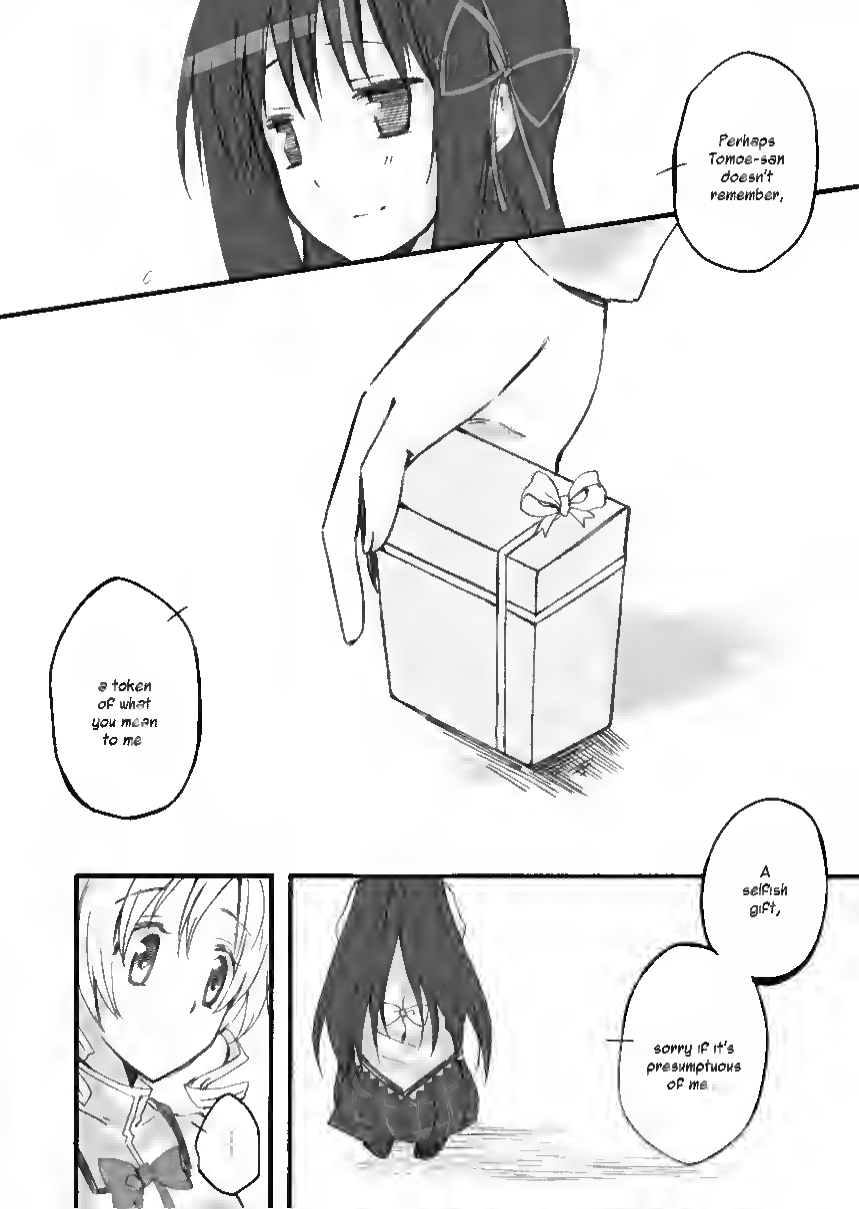
Say, isn't it your birthday today?

Yes. Please accept it As thanks For us surviving this far
And...



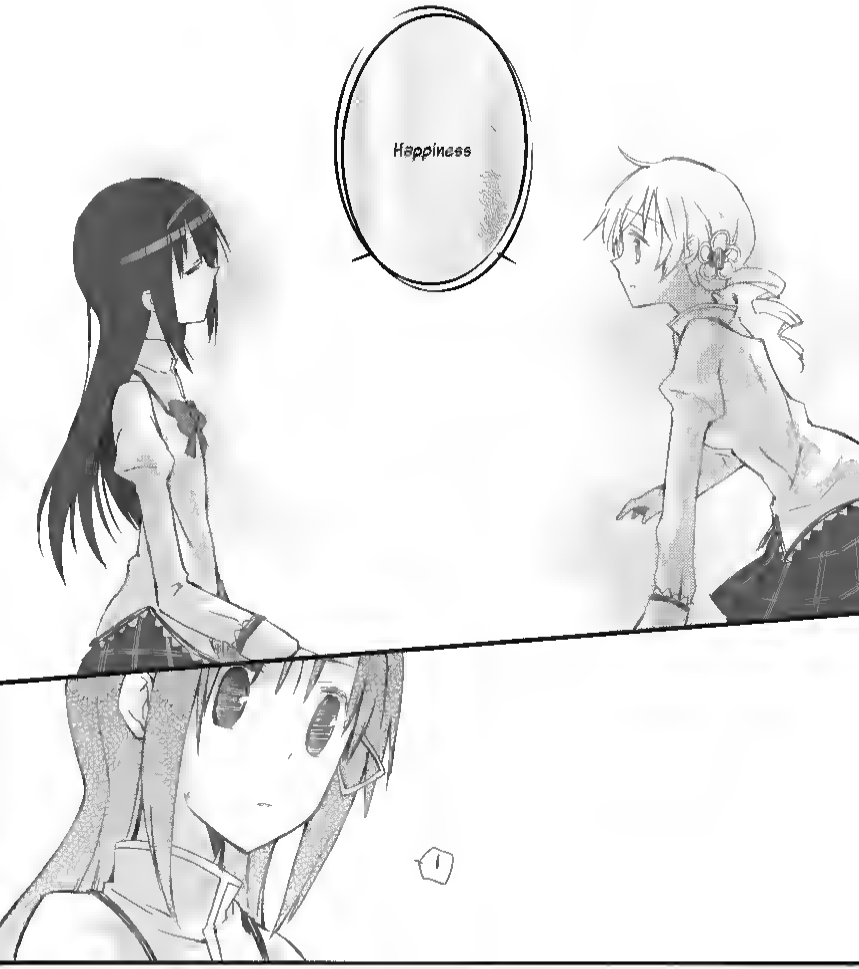
I have something I'd like you to have
Of course

Wow? You even prepared a present?



Perhaps Tomoe-san doesn't remember,
a token of what you mean to me
A selfish gift,
sorry if it's presumptuous of me

M-May I open it!?
Uwaaah!
Yes, go ahead
—Perfume?
Yes.
This scent
Jasmine
In flower language it means "elegance," "refinement," "clarity", "shared joy"
And—



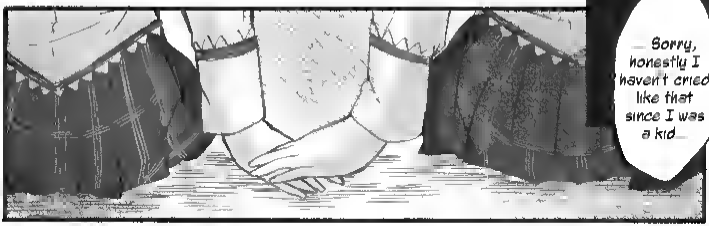
Happiness
!

はたた。
Tomoe -san...?
W-
Why...!
ポロポロ
W-Wha ?

I feel happy...!
happy,
but
also..

pain...

—Transmigration



Why do my tears keep flowing. I don't understand It must be something very important, but also very painful, that I've forgotten

Maybe it's an old magical girl teammate or what has happened between us

Y-You see, Akemi -san!
No, not that Akemi-san, why are you with me?
Yes?
Is Tomoe -san the type that can't handle silence?
It's also for Madoka -san
right?

owww!!?
Tomoe-san, please have a little self-confidence
!?
!?
!?!?
I-I wouldn't have given a gift
to someone I don't like.

I don't need to say any more than that
Her knowing it is enough
Wait, Akemi -san!
Wait...
Because it starts today, let's go from here and take it slowly
Thank you, I'll treasure this!

Afterword

* Here lies the delusions of Myamai

Nice to meet you, this is Myamai.
This book was born out of an unimaginable effort
But Mami-san is too cute, so I couldn't help myself

Now, regarding this doujin,
Maybe the reader has already realized?
This is the sequel to my story in the HomuMami compilation
Well, perhaps you can still feel what I wish to express, even if you haven't read the prequel
A simple (laughs) atmosphere is enough (breath)
Before this timeline, Homura pushed Mami away;
Acting recklessly, pretending to be the bad guy
In the present, after escaping from this endless maze,
What kind of feelings are brewing inside her during the changing seasons?
Will she come out stronger than she went in ? Homu homu ?
I drew this as these thoughts circled in my mind something like that
Basically, she's the type that likes to apologize, blushes often, and is unable to say "those words" except jokingly
Homura travels over and over in a single season in time
When time finally moved forward, what brews inside her as she finally see the foliage changing with the season?

No matter how many times Homura tried, she could never save her So she told herself – give up
With that in mind, she too becomes a tool for use.
Through this process, her feelings towards Mami-san, beyond ill will,
are nurturing without her realizing it Wouldn't it be great if Homura could realize her feelings?

Mami-san also feels something towards Homura, things that she can't say
In my setting, Mami isn't the one that take the initiative "Unmovable"
Caring tough trustworthy, these are all proof that her heart isn't fragile
But if someone told her – "let us be together forever" – She will definitely fall without fail She's that kind of girl
That's how Homu took advantage of her

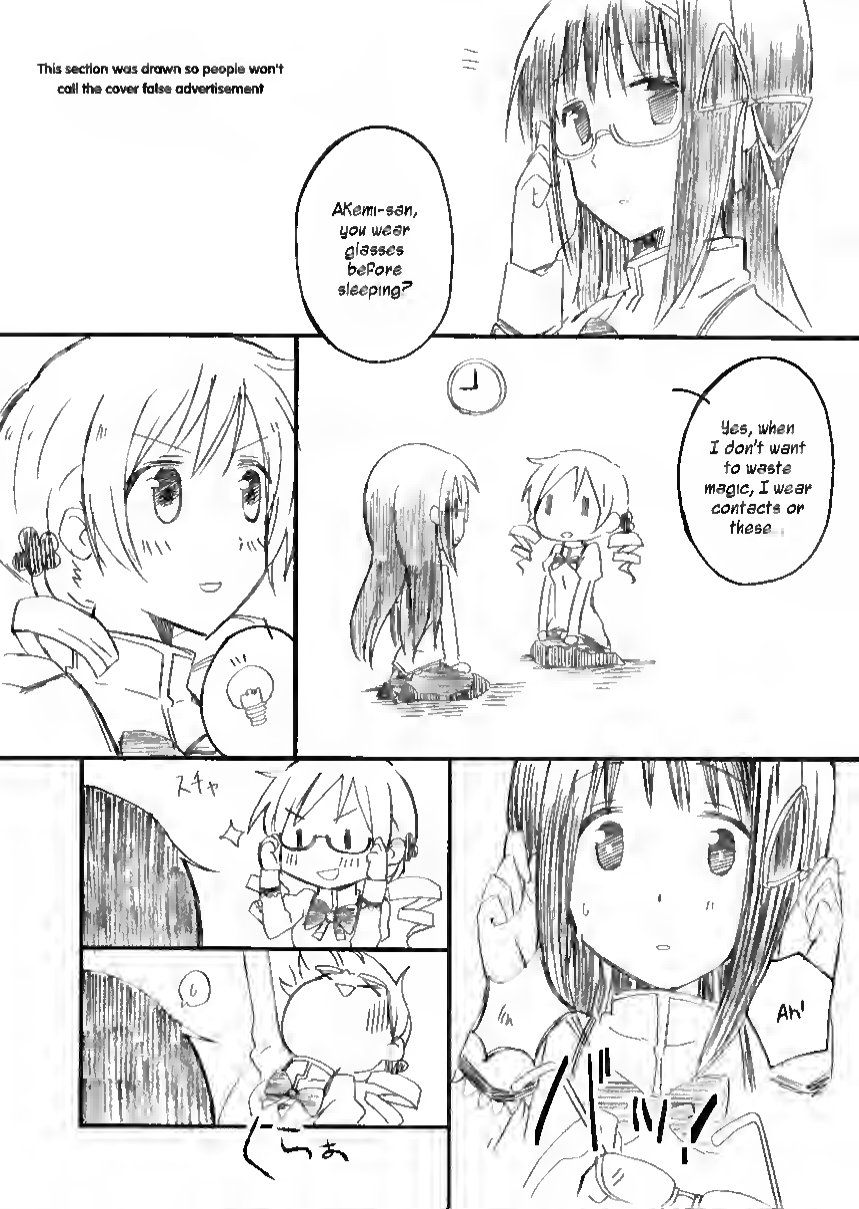
About Mami-san's birthday, it was my invention. I thought summer rain feels about right
Coincidentally, the gift's scent (Jasmine) also blooms in the summer rain
Please come out with summer costumes already!!
By the way girls hate it when guys buy them perfume! It's embarrassing!
But Homu Homu is a girl, so it's okay!
Oh, it definitely has a "You belong to me" kind of meaning
How embarrassing!
"Jasmine" is read as "kuchinashi" not "kubinashi"
[T/N Kuchinashi means no mouth, kubinashi means no head]

Sense of smell is the greatest at invoking memory
Even if you forget, a nostalgic scent can create an impression of "I remember "

I think Homu homu has inherited all the memories of the new world
She also kept all the memories of the old world, up to the point where Sayaka disappears Each memory help proving the other world's existence.
It's only now that she realizes her feelings for Mami-san.
Although from Mami-san s perspective, Homura is not acting like herself
But, "She's still Akemi-san, so I don t mind!" You knew how it is!

Ah, but Homu Homu doesn't remember what happens after Sayaka disappeared
Thinking about this, I suddenly hope someone will publish a simple doujin about that time, a nch moment with Mami-san, that kind of thing.
Oh no, I'm running out of space! That's it for now!

Please give me more HomuMami!



This section was drawn so people won't call the cover false advertisement
Akemi-san, you wear glasses before sleeping?
Yes, when I don't want to waste magic, I wear contacts or these.
Ah!

Owwww Your eyes are really bad...!
That's right If you're try on glasses when you're not nearsighted, everything looks blurry You can only make out the general direction and colors
In other words, if I wear this, I don't need to close my eyes when kissing Akemi-san ?
← Even though shes the older one, she can't hold back anymore! No regrets!
